

Professional Pool Opening – \$400

Start your swimming season right with a clean, safe, and balanced pool that's ready to enjoy. Our **pool opening service** includes:

Physical Setup

- Remove and store winter cover (folded neatly for storage)
- Inspect and reconnect pool equipment (pump, filter, heater if applicable)
- Top off water to the correct operating level

Initial Cleaning

- Skim and remove surface debris
- Brush walls, steps, and waterline tiles
- Vacuum to remove dirt and sediment from the pool floor

Water Chemistry Preparation

- Apply **phosphate remover** to help prevent algae growth
- Add **2x calcium hypochlorite shock** for immediate sanitizing power
- Add **chlorine stabilizer (CYA)** to protect chlorine from sunlight

Equipment Check

- Prime Pump
 - Test and ensure pump and filter are operating correctly
 - Adjust return jets for optimal water circulation
-

Professional Pool Closing – \$450

Protect your pool during the off-season and prevent costly damage with our **winterizing service**:

Water & Surface Prep

- Perform a **partial drain** to reach winter-safe water level
- Apply **phosphate remover** to discourage algae over winter
- Add **algaecide** for long-term prevention
- Add **3x calcium hypochlorite shock** for a deep sanitizing treatment
- Add **chlorine stabilizer (CYA)** for extended chlorine life

Winterizing Equipment

- Disconnect, drain, and winterize pump, filter, and any additional equipment
- Remove and store skimmer baskets and return fittings
- Install winterizing plugs as needed

Final Protection

- Install and secure your winter cover for maximum protection
- Inspect for any visible issues and recommend repairs if necessary

 **Tip:** Scheduling your opening and closing in advance ensures we can service your pool on your preferred date and help you avoid the seasonal rush.
